**Introduces the**

## **ICEBERG** **Series**

**“We don’t use  
the latest  
technologies.  
We invent  
them.”**

Ice Air is making history with the introduction of the Iceberg Series, which is several steps ahead of the competition. At Ice Air we believe that products should evolve, improve, and innovate. In fact, our customers have come to expect this from Ice Air. The Iceberg Series is so small and full of features, you won’t believe it.

- **Dual Duct I/O Condenser Air Flow for Balanced Air Pressure**
- **Incredibly small and durable HD cabinet**
- **Microprocessor controlled with self-diagnostics**
- **Available in air and water cooled**
- **Units in sizes from 1-10 tons**
- **THD - Twin Hyperdrive Technology (some models)**
- **Attractive Hi-Tech appearance with Quadirectional front louvers**
